LICENSING & REVIEW

Sir:

On August 27, 2002, a Notice of Allowance was issued in connection with the above-identified patent application advising the Applicants that the case is in condition for allowance.

The above-identified patent application was filed with CONFIDENTIAL national security markings, but the Patent Office did not impose a Secrecy Order on this application. There is, however, a substantial possibility that the Defense Threat Reduction Agency ("DTRA") might consider some portions of the patent application to be classified. The Defense Threat Reduction Agency's headquarters are in the DTRA Annex located on the campus of the Headquarters Complex in Fort Belvoir, Va.

Since the Applicants believe that above-identified patent application might be classified according to DTRA regulations, the Applicants request that a determination be made whether a Secrecy Order should be imposed on the above-identified patent application.

Match and Return

OK to ENCL

The Applicants and their attorneys have and will continue to treat the patent application as classified until they are instructed to the contrary.

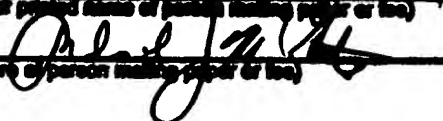

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
